10	Attorneys for Plaintiff		
11	UNITED STATES DISTRICT COURT		
12	FOR THE DISTRI	CT OF ARIZONA	
13	Dr. Andrew Snelling,	CIV NO.	
14			
15	Plaintiff,		
16	v.		
17	United States Department of Interior;	VERIFIED COMPLAINT	
18	National Park Service; Ryan Zinke, Secretary of the U.S. Department of		
19	Interior, in his official capacity; Michael		
20	T. Reynolds, Director of the National Park Service, in his official capacity; Sue		
21	Masica, Regional Director, Intermountain	(Jury Trial Demanded)	
22	Region of the U.S. National Park Service, in her official capacity; Christine S.		
23	Lehnertz, Superintendent, Grand Canyon		
24	National Park, in her official capacity,		
25	Defendants.		
26			
27	Dr. Andrew Snelling ("Plaintiff"), thr	ough counsel alleges the following causes of	
28	action against Defendants.		

1	I.		
2	INTRODUCTION		
3	1. This is a civil rights action to protect the statutory and First Amendment		
4	rights of an individual to perform geological research in a public park. Defendants have		
5	unlawfully restricted these rights by policies and practices, which involve content-based		
6 7	and viewpoint discrimination, are vague, and are inappropriately enforced. These		
8	constitutional defects give rise to both facial and as-applied constitutional challenges to		
9			
10	Defendants' discriminatory policies and practices.		
11	II.		
12	JURISDICTION AND VENUE		
13	2. This action raises federal questions under the United States Constitution,		
14	particularly violations of the Free Speech and Free Exercise Clauses of the First		
15 16	Amendment, violations of equal protection and due process under the Fifth Amendment,		
17	as well as federal questions under the Religious Freedom Restoration Act, 42 U.S.C. §		
18	2000(bb) et. Seq. ("RFRA"); these claims are properly challenged pursuant to federal law,		
19	particularly 28 U.S.C. §§ 1331; 1346; and 2201 – 2202.		
20	3. This Court has original jurisdiction over the federal claims by operation of		
21	28 U.S.C. §§ 1331 and 1346.		
22			
23 24	4. This Court has authority to grant the requested injunctive and declaratory		
25	relief under 28 U.S.C. §§ 2201 -2202 and attorney's fees and costs under 28 U.S.C. § 2412		
26	and the Equal Access to Justice Act.		
27	5. Venue is proper in the U.S. District Court for the District of Arizona under		
28	28 U.S.C. § 1391(e), because a Defendant resides within the District of Arizona and a		
	2		

1	substantial part of the events giving rise to the action occurred within the District of		
2	Arizona.		
3	III.		
4	IDENTIFICATION OF PLAINTIFF		
5			
6			
7	a citizen of Australia, and is a United States resident alien. His green card number is		
8	USCIS# 205-371-637, Category E26. It expires 03/17/2024		
9 10	7. Dr. Snelling has a Ph.D. in Geology from the University of Sydney,		
11	Australia's oldest and one of its most prestigious universities, which is highly ranked in		
12	the top 100 among universities throughout the world.		
13	8. Dr. Snelling has substantial field and laboratory experience over the last 45		
14	years relating to numerous aspects of theoretical and practical geological research. He		
15	conducts his scientific research in accord with his profession's ethical and scientific		
16 17	standards.		
17			
10	9. Dr. Snelling is a professing Christian, and is primarily focused on		
20	investigating geological phenomena from the perspective of one who believes in the truth		
21	of the Old and the New Testaments.		
22	10. Dr. Snelling was associated as the Geology spokesman for the Creation		
23	Science Foundation.		
24	11. Since 2007, Dr. Snelling has been employed with Answers in Genesis, a		
25	Christian apologetics organization based in Petersburg, Kentucky that engages in the		
26			
27	investigation of geological phenomena and other endeavors from a Biblical perspective.		
28	3		

1	12.	Dr. Snelling is also the Editor-in-Chief of the Answers' Research Journal, a	
2	professional,	peer-reviewed technical journal for the publication of interdisciplinary	
3	scientific and other relevant research		
4	13.	Dr. Snelling has published a number of professional articles in peer-reviewed	
5	geology jourr	nals.	
6			
7	14.	Dr. Snelling has successfully completed 3 prior research projects, without	
8	complaint from any NPS official within the Grand Canyon in the past 18 years.		
9 10	15.	Since 1992, Dr. Snelling has functioned as the geologic interpreter on more	
10	than 30 river	trips through the Grand Canyon.	
12	16.	Dr. Snelling is a Christian, and writes papers and articles and lectures from a	
13	Biblical perspective regarding the professional research he has conducted in various		
14			
	locales.		
15

1	19. The National Park Service is a bureau within the United States Department		
2	of the Interior. It works to preserve the natural and cultural resources and values of the		
3	national park system, which includes the Grand Canyon National Park. ("Grand Canyon").		
4	It is headed by a director, and the organization consists of a headquarters office, as well as		
5	regional offices, including the Intermountain Region.		
6 7	20. Defendant Michael T. Reynolds is the Director of the National Park Service.		
8			
9	Among other things, he is charged with the responsibility of administering governmental		
10	policies concerning national parks, including the Grand Canyon National Park.		
10	21. Defendant Sue Masica is the Regional Director of the Intermountain Region		
12	of the U.S. National Park Service. Among other things, she is charged with the		
13	responsibility of administering governmental policies concerning the Grand Canyon		
14	National Park.		
15 16	22. Defendant Christine S. Lehnertz is the Superintendent of the Grand Canyon		
10	National Park for the National Park Service. She is charged with oversight of the Grand		
18	Canyon National Park.		
19	23. Each individual Defendant is sued in his or her official capacity.		
20	V.		
21			
22	STATEMENT OF FACTS		
23	24. In November of 2013, Plaintiff requested permission to study the folding of		
24	Paleozoic sedimentary structures at four locations within the Grand Canyon, specified to		
25 26	the nearest one-tenth of a river mile, seeking to collect a maximum of sixty (60) one-half		
20	(1/2) pound samples of rock from these unique folds. Access was to be via commercial		
27			
-0			

river trips launching April 25, and July 9, 2014, which had already been permitted. See
Ex. A.

- ³ 25. As a general matter, scientific research within the Canyon does not create
 ⁴ management issues or adverse impacts on the environment. Researchers are largely self⁵ regulating and willingly comply with permit requirements and relevant state and federal
 ⁷ laws protecting cultural resources, endangered species, riparian areas, and so on.
- 8 26. More specifically, between January, 2011 and April, 2016, the NPS recorded
 9 only a single complaint regarding a scientific research permit holder did not comply with
 11 the permit terms.
- 12 27. After Dr. Snelling submitted his application, the Research Permitting
 13 Coordinator, Ronda Newton, asked Dr. Snelling to finalize his report for a previously
 14 permitted sample collection research trip before she reviewed the November application.
 15 Dr. Snelling did so, and transmitted the report to Ms. Newton on December 2, 2013.
- After Dr. Snelling transmitted the report, Park officials asked yet more
 questions, including more detailed locations for the sampling, a more detailed description
 for a sample site proximate to a helipad, and to specify which of the permitted river
 outfitters he would be utilizing. Dr. Snelling appropriately responded to these questions.
- 22 29. On February 5, 2014, Ms. Newton requested that Dr. Snelling obtain and
 23 submit two peer reviews evaluating his research proposal.
- 30. Such reviews had not been requested in the course of Dr. Snelling's prior
 permit applications.
- 27 28

1	31.	In response to Ms. Newton's request, Dr. Snelling supplied not two, but three	
2	peer reviews of this project, each of which rated the project highly and commended it for		
3	approval. See Ex. B.		
4	32.	After having received the three peer reviews, Ms. Newton then sent Dr.	
5	Snelling's application materials to Dr. Karl Karlstrom, of the University of New Mexico		
6 7	requesting his review on behalf of the NPS.		
8	33. Dr. Karlstrom has been controversial in the ongoing debate over the age of		
9			
10	the Grand Canyon by proposing a significantly younger age for the Canyon—only 5 to 6		
11	million years-	versus the more commonly proposed age in the range of 70 million years.	
12	34.	Dr. Karlstrom's responses briefly addressed a few scientific issues while	
13	demonstrating antipathy for Dr. Snelling's religious faith and the religious views of the		
14 15	scientists who provided peer reviews on behalf of Dr. Snelling. See Ex. C.		
15 16	35.	Dr. Karlstrom proceeded to ask Ms. Newton advice on which letterhead -	
17	the Universit	y of New Mexico or Northern Arizona University – he should submit his	
18	adverse comm	nentary regarding Dr. Snelling's proposal.	
19	36.	By letter dated February 10, 2014, Dr. Karlstrom dissected Dr. Snelling's	
20	faith in the Bible and his association with his ministry, and indicated that "alternate sites"		
21 22	were available to do Dr. Snelling's research, without suggesting a single actual location.		
22			
23	37.	Thereafter, Ms. Newton sought a second peer review on behalf of the NPS	
25		er Huntoon, University of Wyoming.	
26	38.	The research Dr. Snelling sought to conduct would investigate some of the	
27	same geologie	c folds that Dr. Huntoon had investigated and previously published papers on.	
28			
		7	

1	39. Dr. Huntoon and Dr. Karlstrom have collaborated on various research	
2	projects through their careers, including geologic research within the Grand Canyon and	
3	on topics related to Dr. Snelling's proposed research.	
4	40. Dr. Huntoon condemned Dr. Snelling' proposal by stating it "is not a	
5		
6	question of fairness to all points of view, but rather adherence to your narrowly defined	
7	institution mandate predicated in part on the fact that ours is a secular society as per our	
8	constitution." See Ex. D. Dr. Huntoon closed his report by urging the Park Service to	
9	include "internal screening processes [that] should include an examination of the	
10		
11	credentials of the submitters so that those who represent inappropriate interests should be	
12	screened out." Id.	
13	41. In a subsequent email conversation on or about February 12, 2014 at 1:05	
14		
15	P.M., Dr. Huntoon advised Ms. Newton that "[r]eviewing is fine, just not processing the	
16	dead end creationist material." See Ex. E.	
10	42 Ma Namtan also calibritad anothen marian fram Dr. Dan Dlahala of the	

Ms. Newton also solicited another review from Dr. Ron Blakely of the
 Northern Arizona University, who summarily stated that "it is difficult to review such an
 outlandish proposal." No actual analysis was provided. See Ex. R.

43. On March 4, 2014, Martha Hahn, Chief, Science and Resource Management
Research Office, denied Plaintiff's permit stating that "it has been determined that
equivalent examples of soft-sediment folds can be found outside of Grand Canyon National
Park." See Ex. F.

44. Dr. Snelling repeatedly asked Ms. Hahn and Ms. Newton for the locations
 and details of these alternate folds Ms. Hahn had indicated were elsewhere in Arizona and

28

25

the Colorado Plateau within easy driving distance, but his legitimate requests were met
with silence.

3	45. This was in direct contradiction to Dr. Snelling's position that his due		
4	diligence research had not disclosed any adequate alternate locations; that the folds that he		
5			
6	sought to examine were unique to the Canyon location; and that a primary purpose of his		
7	proposed study was to evaluate these particular folds to determine when the folding		
8	occurred. Defendants' alleged rationale also ignored that Plaintiff's research in the Grand		
9	Canyon was designed to expand on his prior published research done on these particular		
10			
11	folds based upon the visual inspection of them.		
12	46. On April 17, 2014, Martha Hahn noted that Dr. Snelling would be subject to		
13	being "banned from research in the national park system" if he were to collect the few fist-		
14	sized samples without a permit. See Ex. G.		
15	sized sumples without a permit. See Ex. C.		
16	47. Also on April 12, 2014, Ronda Newton suggested to Martha Hahn that she		
17	give a "heads up" to two individuals who were "willing to look out for folks like this on		
18	the river." In context, "folks like this" referred to Dr. Snelling. See Ex. H.		
19	48. Defendants' asserted reason for denying the permit application—that		
20	annuarity costorio folds sutside the Dark would some the chiestings of the message		
21	appropriate geologic folds outside the Park would serve the objectives of the research—		
22	was pretextual.		
23	49. The actual reason behind the rejection was because of Dr. Snelling's		
24	Christian faith and scientific viewpoints informed by his Christian faith.		
25			
26	50. On February 8, 2016, Dr. Snelling submitted an amended research proposal		
27	which systematically responded to the alleged scientific "concerns" raised in the prior		
28			

1	reviews, including Dr. Karlstrom's February 10, 2014 letter, and provided extensive		
2	citations to relevant scientific literature to support his request. See Ex. I.		
3	51. The amended proposal reduced the number of samples requested to a		
4	maximum of 40.		
5 6	52. Dr. Snelling also supplied three peer reviews in compliance with the		
7	previously stated GCNP Research Office procedures. See Ex. J.		
8	53. The delays began again, now with a demand for more detailed sampling site		
9	locations.		
10 11	54. Dr. Snelling responded on February 28, 2016, by supplying projected		
12	locations within plus or minus 100 feet of the proposed sampling site obtained from a close		
13	examination of online cartographic data. See Ex. K.		
14	55. Dr. Snelling's estimates are significantly more precise estimates of potential		
15 16	sampling sites than those provided in other permit applications which were granted, in		
17	which sampling sites would be described simply as being within a range of miles on the		
18	Colorado River.		
19	56. When no permit was forthcoming through the balance of 2016 despite		
20 21	ongoing contacts between Dr. Snelling and Park personnel, Dr. Snelling through counsel		
22	notified Ms. Lehnertz on December 22, 2016 of the legal concerns arising from the		
23	stonewalling and again requested that the permit be issued. See Ex. L (omitting		
24	attachments).		
25 26	57. Ms. Lehnertz did not acknowledge or respond to counsel's letter of		
27	December 22, 2016.		
28			

1	58. On January 23, 2017, Dr. Snelling, again through counsel, sent a second copy		
2	of the December 22, 2016 letter to Ms. Lehnertz via overnight mail.		
3	59. Ms. Lehnertz did not acknowledge or respond to counsel's letter of January		
4	23, 2017 and the accompanying copy of the December 22, 2016 letter.		
5			
6	60. On March 31, 2017, Congressman Trent Franks contacted Ms. Lehnertz via		
7	facsimile, calling her attention to Dr. Snelling's pending application and requesting that		
8	the permit be issued. See Ex. M.		
9	61. As of the date of filing this Complaint, Ms. Lehnertz has not acknowledged		
10	an man de data Cana man Englas' Manch 21, 2017 a municipation		
11	or responded to Congressman Franks' March 31, 2017 communication.		
12	62. On April 25, 2016, Park Service officials issued a permit dated July 15, 2016		
13	to Dr. Snelling, not to conduct his research, but rather to have him traverse the Colorado		
14	River through the Grand Canyon and obtain on-site GPS data and photographs for each of		
15			
16	his proposed sampling sites which would obligate him to duplicate the same river raft trans-		
17	Canyon trip that the research itself would require.		
18	63. The July 15, 2016 permit was issued without any contest as to the validity of		
19	Dr. Snelling's research or informing him that there were other substantially identical		
20			
21	"folds" outside of the Park's boundaries that he could examine.		
22	64. Based upon comprehensive records of all scientific research permits issued		
23	during 2014 through 2016, no other researcher was obligated to conduct a preliminary		
24	reconnaissance trip to obtain and supply on-site GPS data to locate potential sampling sites.		
25			
26	65. To the contrary, the NPS issued several permits for more extensive and		
27	invasive geologic sampling than that proposed by Dr. Snelling—including a permit to Dr.		
28			
	11		

1	Karlstrom—based on applications which identified potential sampling sites as being within		
2	a range of miles along the Colorado River. See Ex. N.		
3	66. Specifically, the July 15, 2016 permit imposed this unprecedented		
4	requirement on Doctor Snelling:		
5 6	No samples are authorized for collection. PI [principal investigator] will take		
7	photographs and GPS coordinates of the exact sites where collections are requested. Upon conclusion of the July 2016 river trip, PI will submit the photopoints, GPS		
8	coordinates, and a narrative explaining the methodology of how the samples will be extracted so that the collection sites will not be visible to the public after the samples		
9	have been taken. GPS coordinates are to be submitted to GRCA Research		
10	Coordinator in an ESRI shapefile.		
11	See Permit # GRCA-2016-SCI-0013, Ex. O.		
12	67. This requirement directly contradicts the Park's own guidelines for		
13	applications, which state as follows:		
14 15	Description of study area Clearly describe the study area in terms of park name(s), geographic location(s), and		
16	place names. Provide UTM coordinate information (<u>if known prior to the</u> <u>conducting the study</u>) in NAD83HARN, as appropriate.		
17 18	See Guidelines for Study Proposals, USDI NPS GNCP,		
19	https://www.nps.gov/grca/learn/nature/upload/GUIDELINES-FOR-STUDY-		
20	PROPOSALS.pdf.		
21	68. The Park has routinely authorized applications proposing far more aggressive		
22	sampling without the demand that the researchers first conduct an independent trip to locate		
23	each sampling site with specific GPS data. For example:		
24 25	a. Investigator Dr. Brian Clark was authorized to collect "50 basketball-sized		
26			
27	rock samples" with the locations specified as "[a]long the mainstream		
28			
	12		

1		Colorado through the Grand Canyon National Park." Permit # GRCA-2014-
2		SCI-0016, Ex. P.
3	b.	Investigator Mr. Donald Bills (a non-Ph.D. qualified researcher) was
4		authorized to collect "water samples, soil, sediment and rock samplesas
5		needed" from "RM25 to RM 60; Havasu Creek North Rim from the Rim
6		
7		to the River; Horseshoe Mesa in and around the Grapevine Mine; Horn
8		Creek Drainage; Salt Creek Drainage; 150 Mile Canyon; Tuckup Canyon."
9 10		Permit # GRCA-2014-SCI-0019, Ex. Q.
10	с.	Investigator Dr. Karl Karlstrom was authorized to collect "250 fist-sized rock
12		samples, 12 basketball-sized rock samples, 20 (gallon-sized Ziploc bags)
13		samples of sand or sandstone chunks" at a location specified as "[a]long
14		the mainstream Colorado River through Grand Canyon National Park."
15		
16		Permit # GRCA-2014-SCI-0015, Ex. N.
17	69.	There is a very limited capacity for river trips through the Colorado River at
18	the Grand Ca	anyon, with extended lead time necessary to secure reservations.
19 20	70.	By demanding precise GPS locations and photos for each sampling spot via
20 21	a preliminary scouting trip, the Defendants are at least doubling the cost of the research,	
22	and potentially delaying it for a year.	
23	71.	There is no assurance that the demanded GPS data can be obtained in a single
24		er and river conditions, and the potential that landing spots may be occupied
25		
26	by other tour	s could prevent landing at one or more sample sites, which would necessitate
27	additional trips just to obtain the scouting data demanded by the NPS.	
28		
		13

1	72. Nor is there any assurance that if Dr. Snelling complies with this
2	unprecedented demand for site-specific GPS data for every location where a fist-sized rock
3	might be removed, that a research permit will actually issue.
4	73. These onerous burdens are simply a pretext to prevent Dr. Snelling's research
5	
6	from occurring.
7	74. After Dr. Snelling did not accept the draconian proposal offered, Ronda
8	Newton emailed Dr. Snelling on July 5, 2016 to notify him that his permit had been
9	cancelled. See Ex. S.
10	75. The Defendants' actions as outlined demonstrate animus towards the
11	
12	religious viewpoints of Dr. Snelling, and violate Dr. Snelling's free exercise rights by
13	imposing inappropriate and unnecessary religious tests to his access to the Park.
14	76. In committing the above-referenced acts, the Defendants have enforced
15 16	vague standards and have indulged in viewpoint discrimination, denying Plaintiff equal
17	protection of the laws by stonewalling the 2013 application and attempting to block the
18	2016 application by erecting prohibitively expensive and time delaying requirements.
19	77. On May 4, 2017, President Donald Trump issued an Executive Order
20	Promoting Free Speech and Religious Freedom to the agencies under his authority to
21	
22	establish the following policy:
23	Section 1. Policy. It shall be the policy of the executive branch to vigorously enforce Federal law's robust protections for religious freedom. The Founders
24	envisioned a Nation in which religious voices and views were integral to a
25	vibrant public square, and in which religious people and institutions were free to practice their faith without fear of discrimination or retaliation by the
26	Federal Government. For that reason, the United States Constitution enshrines and protects the fundamental right to religious liberty as
27	Americans' first freedom. Federal law protects the freedom of Americans
28	and their organizations to exercise religion and participate fully in civic life

1	without undue interference by the Federal Government. The executive branch will honor and enforce those protections.
2 3	78. Defendants' policies and practices that resulted in denying Dr. Snelling the
4	research permit he requested are inconsistent with the May 4, 2017 Executive Order
5	Promoting Free Speech and Religious Liberty, specifically that portion stating "All
6	executive departments and agencies (agencies) shall, to the greatest extent practicable
7	and to the extent permitted by law, respect and protect the freedom of persons and
8 9	organizations to engage in religious and political speech."
10	
11	VI.
12	STATEMENT OF LAW
13	79. At all times relevant to this Complaint, each and all of the acts alleged herein
14	were attributed to the Defendants who acted under color of a statute, regulation, custom,
15	or usage of the United States of America.
16	
17	80. As a lawful resident alien of the United States, Plaintiff enjoys the protections
18	of the Religious Freedom Restoration Act and the constitutional protections of the Bill of
19	Rights, excepting only those that are expressly reserved to citizens of the United States.
20	81. Plaintiff challenges Defendants' policies and denial of the requested permits
21 22	on their face and as applied.
22	82. Defendants knew or should have known that denying Plaintiff a permit is a
24	
25	violation of his constitutional rights.
26	83. The denial of an individual constitutional right is presumptively irreparable
27	harm which cannot be fully compensated by an award of money damages.

VII.

FIRST CAUSE OF ACTION

<u>VIOLATION OF THE RIGHT TO FREEDOM OF SPEECH UNDER THE FIRST</u> <u>AMENDMENT TO THE UNITED STATES CONSTITUTION</u>

5 84. Plaintiff realleges all allegations set forth above and incorporates them
6 herein.

85. Defendants' research permit policies and practices violate the free speech
protections of the First Amendment to the United States Constitution facially and as applied
because they permit Park officials to engage in content-based and viewpoint
discrimination, are vague, are overbroad, are prior restraints, and grant government
officials unfettered discretion in the restriction of scientific research based on the religious
views of the research applicant.

15 86. Scientific investigation is an activity protected by the First Amendment to 16 the United States Constitution.

88. Regardless of the type of forum, government may not discriminate based on
the religious viewpoints of the actor.

89. Defendants' policies and practices as applied to Plaintiff constitute
impermissible content- and viewpoint-based restrictions on constitutionally protected
activities.

26 90. Defendants' policies and practices as applied to Plaintiff infringe his right to
27 associate to express ideas and exercise his faith.

1	91. Defendants' policies and practices do not serve compelling government
2	interests, are not narrowly tailored, and do not leave open ample alternative channels of
3	activity.
4	92. Defendants' policies and practices are impermissible prior restraints on Dr.
5 6	Snelling's expression in violation of his rights to freedom of speech.
7	93. Defendants' policies and practices are not content-neutral time, place, and
8	manner restrictions.
9	94. Defendants' policies and practices vest unfettered discretion in the
10	
11	Defendants to restrict to constitutionally-protected activities.
12	WHEREFORE, Plaintiff respectively requests that the Court grant the relief set forth
13	hereinafter.

1	Х.
2	FOURTH CAUSE OF ACTION
3	VIOLATION OF EQUAL PROTECTION UNDER THE FIFTH AMENDMENT
4	TO THE UNITED STATES CONSTITUTION
5	106. Plaintiff realleges all matters set forth in the preceding paragraphs and
6	incorporates them herein.
7	107. Freedom of speech under the First Amendment is a fundamental right.
8 9	108. The Fifth Amendment requires that the government treat all similarly
10	situated individuals equally.
11	109. Upon information and belief, Defendants allow similarly situated persons
12	access to the Grand Canyon National Park for the purposes of scientific research.
13 14	110. Defendants' practice of not responding to Dr. Snelling's request for a permit
15	and/or refusing to grant him a permit, while routinely and consistently issuing permits to
16	other geologic researchers, treats Dr. Snelling differently from other similarly situated
17	individuals and groups on the basis of the content and viewpoint of speech and sincerely
18	held religious beliefs.
19 20	111. Defendants do not have a compelling or legitimate governmental interest for
21	such disparate treatment.
22	
23	112. Defendants' policies and practices comprise an unconstitutional and
24	continuing interference and infringement upon the rights of Dr. Snelling to equal protection
25	of the laws as guaranteed by the Fifth Amendment to the United States Constitution.
26	WHEREFORE, Plaintiff respectively requests that the Court grant the relief set forth
27	hereinafter.
28	

1	XI.
2	FIFTH CAUSE OF ACTION
3	VIOLATION OF THE RELIGIOUS FREEDOM RESTORATION ACT.
4	<u>42 U.S.C. § 2000(bb) et. seq.</u>
5	113. Plaintiff realleges all matters set forth in the preceding paragraphs and
	incorporates them herein.
7	114. Federal laws are subject to the Religious Freedom Restoration Act, and
	federal laws which substantially burden one's exercise of religion, even if neutral and
10	generally applicable, must be in furtherance of a compelling governmental interest and be
$11 \parallel t$	the least restrictive means of furthering that interest.
12	115. Defendants' policies and practices as set forth above substantially burdened
13 14	Dr. Snelling's exercise of religion.
15	116. Defendants cannot produce a compelling governmental interest justifying
$16 _t$	their activities as set forth above.
17	117. Defendants failed to use the least restrictive means to achieve any compelling
18 19	government interest that may exist.
	WHEREFORE, Plaintiff respectfully requests that the Court grant the relief set forth
21 ł	hereinafter.
22	XII.
23	PRAYER FOR RELIEF
24	
	WHEREFORE, Plaintiff respectfully requests that the Court:
26	A. Assume jurisdiction over this action;
27	
28	20

1	B. Declare that the policies and practices as described in this Complaint,
2	including but not limited to the USDI NPS GCNP Guidelines for Study Proposals (see \P
3	67, infra) are facially unconstitutional and violate the RFRA because they violate the right
4	to freedom of speech, equal protection, the right to due process, and the right to free
5 6	exercise of religion, which are guaranteed to Plaintiff under the Constitution of the United
7	States and by operation of federal law;
8	C. Declare that the Defendants' policies and practices as described in the
9	Complaint are unconstitutional and violate the RFRA as applied to Plaintiff because they
10	
11	violate his right to freedom of speech, the right to equal protection, the right to due process,
12	and the right to free exercise of religion, which are guaranteed to Plaintiff under the
13	Constitution of the United States and by operation of federal law;
14	D. Issue a mandatory injunction directing Defendants to issue a research
15 16	permit to Dr. Snelling to authorize the research described in his revised application of
17	February 8, 2016.
18	E. Issue a mandatory injunction directing the Defendants to provide a
19	research launch for Dr. Snelling to conduct the requested research to compensate for the
20 21	time lost to Defendants' actions.
21	F. Issue a preliminary and permanent injunction against the Defendants,
23	their agents, officials, servants, employees, and any other persons acting in their behalf,
24	from enforcing said policies and practices against Plaintiff and others for their participation
25	
26	in the activities described in this Complaint;
27	
28	
	21

1	G. Grant to Plaintiff an award of attorneys' fees in an amount to be	
2	deemed appropriate by this Court in accordance with 28 U.S.C. § 2412 and the Equal	
3	Access to Justice Act;	
4	H. Grant to Plaintiff an award of his costs of litigation in accordance with	
5		
6	the 28 U.S.C. § 2412 and the Equal Access to Justice Act;	
7	I. Grant to Plaintiff an award of nominal damages in an amount deemed	
8	appropriate by this Court; and	
9	J. Grant such other and further relief as this Court deems just and proper.	
10	JURY DEMAND	
11		
12	Plaintiff hereby demands a trial by jury of all issues so triable.	
13	RESPECTFULLY submitted this 9 th day of May 2017.
